Discover Our New Release  
Every Year!

## STUNNING REALISM

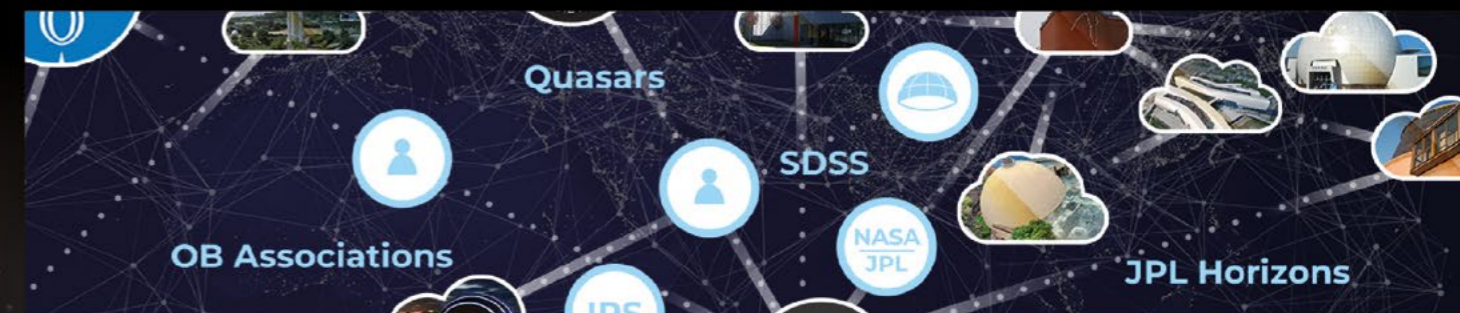

The most stunning and scientifically accurate content in real-time in the industry

- Stunning night sky observations
- Stunning volumetric models
- Advanced 3D models
- Cutting-edge planet rendering
- Stunning and connected datasets

## USING GROUND-BREAKING TECHNOLOGIES, PHYSICALLY BASED RENDERINGS

This is just a glimpse, there is so much more to discover!

## CONNECT COMMUNITY

### DIRECTLY CONNECTED TO THE LATEST SCIENTIFIC DATASETS

#### SKYEXPLORER LIVE ATLAS

Largest fully integrated atlas directly connected to scientific institutions, for instant updates.

#### SKY SURVEYS

High-definition sky maps streaming from HiPS servers, registered by the CDS using HealPix projection and multi-resolution structure.

### JOIN A WORLDWIDE COMMUNITY OF USERS

#### CLOUD COMMUNITY

Share content with SkyExplorer users from around the globe.

#### DOMECASTING

Share a planetarium session with other planetariums.

## INTERACTIVE EXPERIENCE

### USER-FRIENDLY INTERFACE

### INTUITIVE DIRECT CONTROLS

- Key Didactic Tools
- Blackboard (Draw on the Dome)
- Widgets & Advanced Functions
- Help Center
- And much more!

## INTERACTIVE AND INTERCONNECTED TOOLS

FULL IPAD  
CONTROL

Same Interface & Content  
on the iPad & on the Dome

GAMEPAD

Dynamic  
Control

AUDIENCE  
RESPONSE SYSTEM

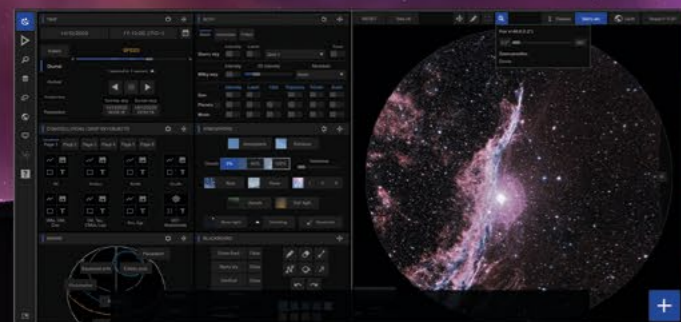

Unequalled  
Technology

MANUAL  
CONSOLES

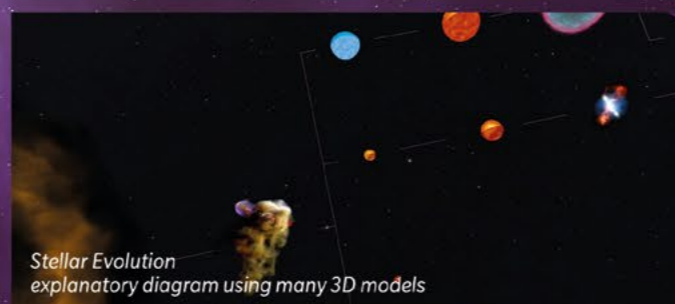

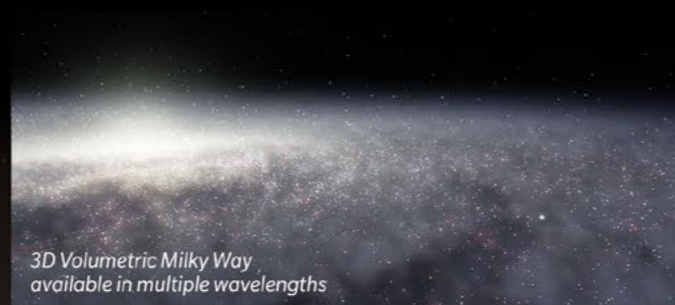

Smooth &  
Quick Controls

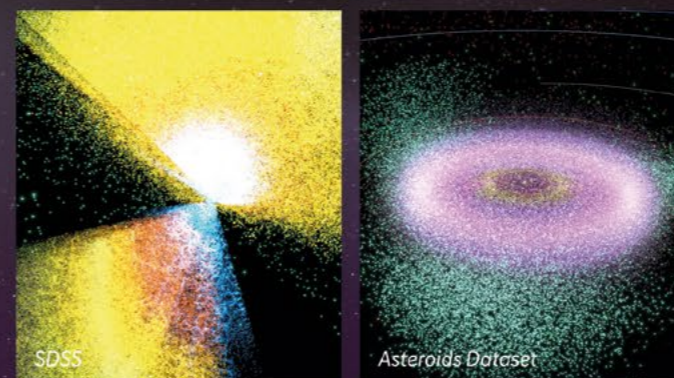

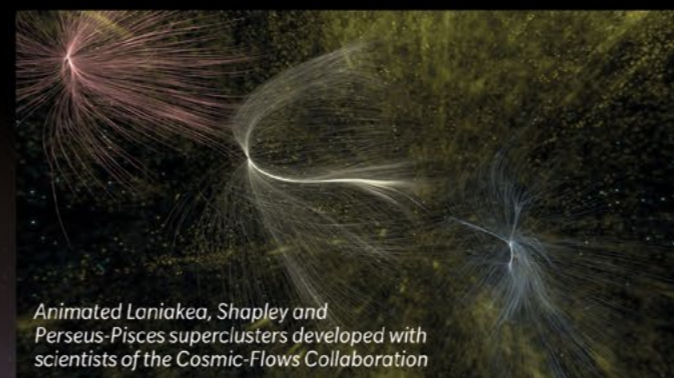

## STUNNING NIGHT SKY OBSERVATIONS

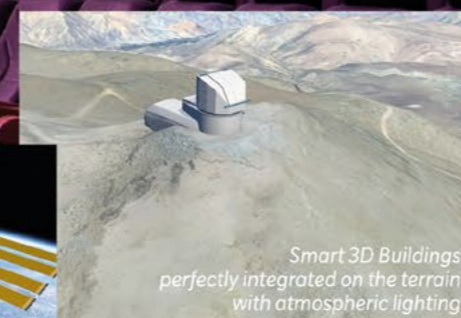

## STUNNING ASTRONOMICAL MODELS

## CONNECTED DATA WITH STUNNING RENDERINGS

## ADVANCED 3D MODELS Available in our Cloud Community

## CUTTING-EDGE PLANET RENDERING

# GLOBAL LEADER IN DIGITAL PLANETARIUMS
